LIPO-CAP TECHNOLOGY

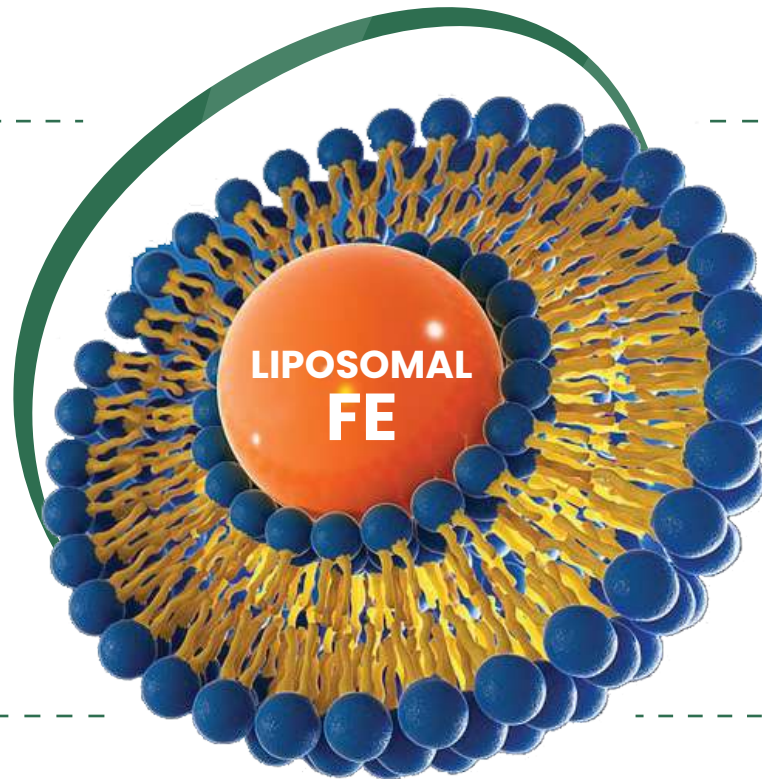

majesticbiopharma®

LIPOSOMAL IRON (14MG): (AI 8 : 18 MG)

Is a double encapsulation of iron molecule within a bi-layer of microscopic sphere made of phospholipids.

Recommended for pregnant women to prevent and treat iron deficiency.

Can be taken with other nutrients without contraindications & interactions with other compounds, unlike conventional iron.

A delivery system for iron.

Has superior bioavailability, with an absorption rate of **30 – 35%**, exceeding the 10% absorption with conventional iron.

No metallic taste in the mouth or GIT discomfort.

ASE TECHNOLOGY

majesticbiopharma®

ACCELERATED SOLVENT EXTRACTION TECHNOLOGY ASE

ASE® is one of the novel techniques that increase the efficiency & the quality of extracts.

ASE® is a technique that utilizes solvents at elevated temperature and pressure.

ASE® enhances solubility, leading to higher recovery rates of bioactive compounds compared to conventional methods.

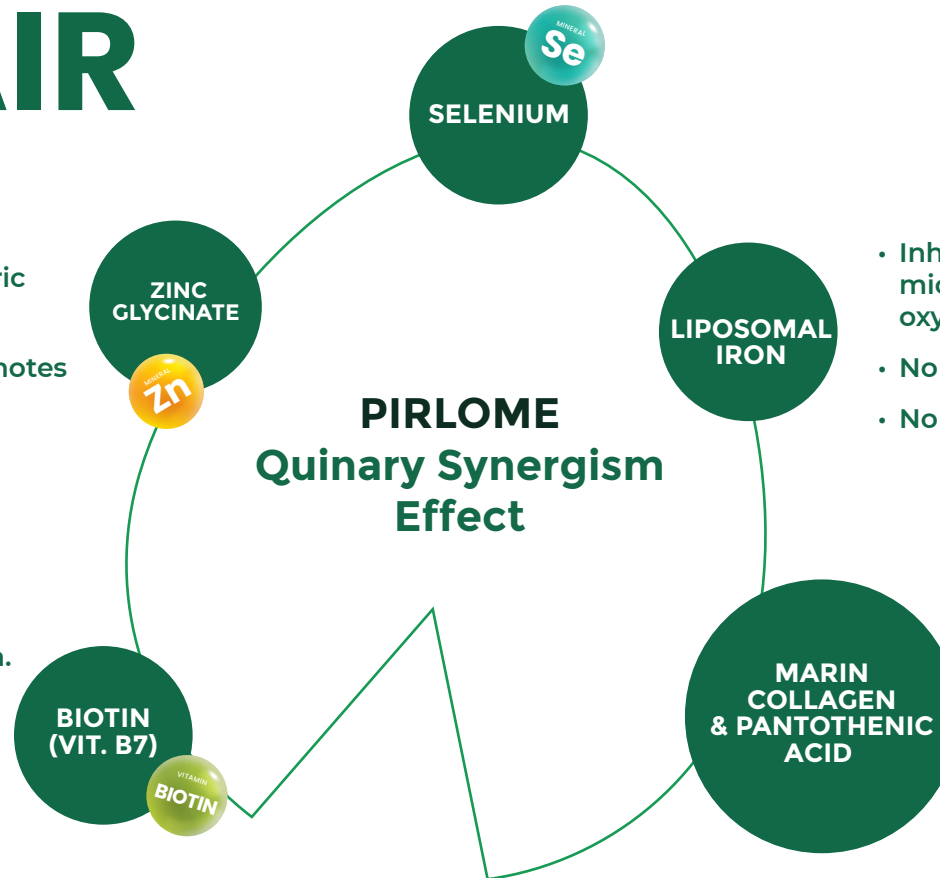

PIRLOME
SKIN, HAIR & NAILS

PIRLOME FOR HAIR

- The highest concentration of selenium.
- Prevents hair follicle miniaturization by protecting it from oxidative damage.
- Combats hair shaft thinning & hair loss.

- Enhanced absorption with no gastric discomfort.
